

Southern Model Show – 7th-8th September, Headcorn

It was great to see so many members both on the flight line and spectating. The crowd really enjoyed the Equaliser pylon racing with Gavin, Matthew, James, and David on the flight line. The Fun Fly balloon burst is always popular with a crowded flight line really showing off the Fusions to their best, this featured Gavin, Matthew, James, David and Ted. There was even time for a solo from Phillip and some wonderful night flying from Gavin, Matthew, James and David before a fantastic fireworks display.

And finally a club caption competition – all entries welcome
