

Club Competition 31st August –Tangerine Drop and Aerobatics

Following some very hot weather and the return of the club members from a successful Nationals the latest club competition took place. Whilst the photos show a beautiful sunny day the wind conditions were very tricky and got worse the longer the day went on.

First up was the tangerine drop and in Neil's words the key is to "watch the plane not the tangerine", sadly not everyone followed this advice, but Fusion's do glue back together quite easily so I'm told.

Neil came first with a very creditable 6ft, Ted was second with 8ft2 and James 3rd with 11ft 10. Of the juniors Matthew came top and 4th overall with 13ft4. Also a special mention to William who flew really well in his first competition.

Next up was the Aerobatics and I'm not sure who was more confused the competitors or the judges. The results were 1st Ted, 2nd James and 3rd David, in the junior part Phillip just pipped Matthew. There was just time before the weather worsened for Phillip to maiden his new Hawk after much help from everyone to get the model fully operational.
